Village Projects

Records Management Grant

The Village Clerk-Treasurer and the WCP Consultants will be submitting a grant through the New York State Archives for the Records Management Grant.

Wastewater Facility

The Village wastewater facility has been an ongoing project. As of March 2024, we have not received any of the grants that we applied for in 2023. The Village engineers and Mayor Boucher have sent letters to local/state representatives for help gathering funding. This project is estimated to cost 9 million dollars and the Village is in desperate need of a new wastewater treatment facility due to the current facility being built in the 1970s.

Noble Street Bridge

Jefferson County will be re-doing the bridge on Noble Street. This project is estimated to go out to bid by April 2024. **The Village may need to turn off water to residents for a short time during this project due to the County moving the underground utilities. We will notify residents affected as soon as we have more information.**

Evans Mills Public Library

Learn to use your iPad or tablet - Free Technology Classes for Seniors – RSVP Your Interest

The Evans Mills Public Library will offer a class on how to use an iPad or tablet computer and a separate one-day lecture on how to manage your privacy online. Free for seniors ages 60+.
